ENIFIX 350 PREMIUM

ALL PURPOSE

ENIFIX 350 is a super strong polychloroprene rubber based universal contact adhesive. It is ideal for innumerable repair and DIY jobs that require immediate bonding. It is highly suitable for multi material assembling jobs both indoor and outdoor.

Recommended Applications:

ENIFIX 350 is an ideal product for bonding of leather, shoe material, composite panels, wood & aluminum items, steel, plastic rubber sheets and carpet backings.

ENIFIX 350 is also suitable for EPDM, rubber, veneer, cork, laminates, PVC skirting, protection board, felt, fiber, etc.

ENIFIX 350 can also be used for handicraft work and repairing shoes, bags & toys.

Application Procedure:

Apply **ENIFIX 350** evenly with a brush or roller evenly on both surfaces, wait until the solvent has fully evaporated. If the material is porous, apply a second coat of **ENIFIX 350** and let it dry. After the evaporation of the solvent in adhesive, assemble the surface by applying normal hand pressure. Special care must be taken on the edges and adhesive must be evenly applied.
