The Story
Behind Landform

Rooted in the raw beauty of South African landscapes, Landform brings calm and balance to heavy commercial interiors. This elegant tufted tile range softens sound, adds layered texture, and connects people to place

Drawing inspiration from diverse terrains - from mountains and plains to dunes and coastlines - Landform captures nature's visual richness in a refined contemporary palette. Crafted with our durable Stainproof SDX yarns, it offers lasting performance alongside its organic aesthetic.

Landform Colourways

Landform's colourways echo the natural tones of South Africa's diverse landscapes - earthy browns, muted greys, sandy neutrals, and coastal blues. Each shade has been carefully curated to bring warmth, depth, and a sense of calm to contemporary interior spaces.

Installation Methods

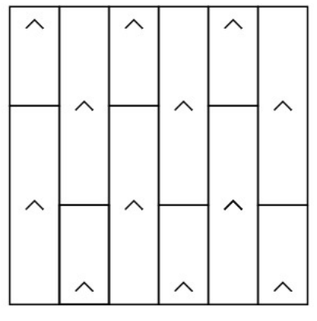

Landform tiles come in a 1000 × 250 mm plank format, giving you total flexibility. Mix and match colours for striking patterns or subtle blends.

Harringbone
Bold and graphic — perfect for defining feature zones.

Staggered Ashlar
More movement, less repetition. Great for creating visual flow.

Ashlar
Clean and structured — ideal for modern, minimalist spaces.

Tufted Tile Installation Disclaimer

All Belgotex tufted tile products are supplied with an installation direction fitting guide. There are many ways to create designs and textures with tufted tiles. These textures are achieved by varying the pile heights of the yarns. When tiles with different heights are installed in the same direction, the joins may create a noticeable "zipper effect" - this is not a manufacturing defect. Belgotex recommends moving tiles around during installation to minimise this effect or any texture variation. It is also recommended that all tufted tiles be laid in a tessellation pattern (90° / quarter turn) for optimal visual consistency.

Product Specifications

Technical Specifications

Use Classification:	(EN 1307)	33 - Heavy Commercial
Construction:		Tufted Pattern Colour Placement Loop Pile
Product Description:		Tufted SDX Loop Pile Bitumen Plank
Yarn Type:		100% Stainproof SDX (Solution Dyed Nylon 6)
Yarn Mass:	(ISO 8543)	±500 (g/m²) / 14.74oz/yd²
Total Thickness:	(ISO 8543)	±5.5 (mm) / 0.2165inch
Total Mass:	(ISO 8543)	±3692 (g/m²) / 108.89oz/yd²
Standard Tile Size:		100×25cm / 39.37 × 9.84inch
Standard Backing Type:		NexBac
Recycled Content:		Yarn - Stainproof SDX Eco (Certain Colours)

Product Disclaimer

Product characteristic may vary due to the nature of manufacturing. To combat colour variances do not install more than one dye lot in a single colour tile installation. Where different dye lots and products are mixed and matched then size variations could take place, and tiles might need to be altered during installation. If you are installing multiple colours in a random pattern, mixing dye lots together won't be a problem. Sample swatches have been cut from an overall design; therefore, the designs and shades may vary. A difference in appearance from the pattern is likely, as the product is not intended to have a uniform appearance. During installation of this product, there could be visible tile joins due to texture and design. This is not a manufacturing fault, tiles need to be moved around in the installation.

Belgotex

Founded over 40 years ago in South Africa, Belgotex has grown into Africa's leading manufacturer of carpets and artificial grass, with a global footprint. We design, make, and distribute high-quality broadloom and modular tiles for residential, commercial and hospitality spaces.

Our commitment to sustainability is embedded in every step of our process. Guided by circular design principles and aligned with the Science Based Targets initiative (SBTi), we continuously innovate to reduce our environmental impact.

As South Africa's first flooring manufacturer to earn a Custom Industrial 6 Green Star rating and a "Level A" Global GreenTag certification, our products are eligible for GBCSA credits – demonstrating our dedication to responsible manufacturing and environmental leadership.
