TECHNICAL DATA

Application			Technical Performances	
	Education			Dimensional Stability $\leq 0.40 \%$
	Healthcare & Wet Area			Residual Indentation $\leq 0.10 \text{ mm}$
	Residential			Castor Chair Continuous Use Suitable
	Office Retail and Hospitality			Light Fastness ≥ 6
	Transport			Flexibility Passes
Classification				Resistance to Chemicals Good resistance
	Commercial / Residential Use	33		Slip Resistance R 9
	Industrial Use	42		Fungi & Bacterial Resistance Optional
	Abrasion Resistance	Group T		Electrical Resistance
Technical Characteristics				Sound absorption 5 dB
	Total Thickness	2.0 +/- 0.130 mm		Under Floor Heating Yes
	Roll Width	2000 mm		Reaction to Fire B fl-s 1
	Roll Length	$\pm 15 \text{ mtr.}$		Body Voltage $\leq 2 \text{ kv}$
	Total Weight	3.5 kg/m ²		Thermal Conductivity 0.25W/m-K

APPLICATION:

Suitable for heavy duty commercial areas like porta cabins, prefabricated buildings, Shops, Offices, Hospitals and Schools.

INSTALLATION:

- Ensure sub floors are structurally sound, clean, smooth and dry
- Use Vinyl based Adhesive for laying

MAINTANENCE:

- Clean the surface daily with damp mop and weekly with mild soap solution.
- Use coir frush or fine steel wool No.000 soaked in warm soap solution to clean effected area.
- Do not throw lighted cigarette buffs or match sticks on the floor
- Use water to clean chemical spilling
